

Preschool Program

● Theme-oriented Curriculum

The **"Peabody Early Experiences Kit"** provides a vast array of appealing, well-thought-out materials. The program's 1,000 play-like activities encourage children to build cognitive, social, emotional, physical and language skills by utilizing **Hand Puppets**, **Picture Cards** (to develop vocabulary and sorting skills and to illustrate emotions), **Story Cards** (to develop listening, comprehension, recall, sequencing and rhyming skills), **Song Cards** and **Cassettes** (with words, music and activities for each song), **Picture Minidecks** (to teach actions, singulars, tools, whole objects and missing parts), **Posters**, and **Beads** (to teach sizes, shapes, colors, counting, matching, sorting and sequencing). Many other exciting items will teach sharing, classification, problem solving, movement, cooperation and logical thinking!

These lessons provide continuity while still being appropriate to the attention span of the Preschooler.

● Reading Readiness

- ◆ Colors
- ◆ Holidays/Calendar Use
- ◆ Story Time
- ◆ Shapes
- ◆ Letters
- ◆ Numbers
- ◆ Rhymes

● Hands-on Computer Experiences

● Community Helper Experiences
